

**OFFICE OF THE AGENCY EDUCATION  
OFFICER ORAKZAI AGENCY AT HANGU**

No. 5173

Dated Hangu the: 27/09/2016

Phone/FAX # 0925-690017

**TO WHOM IT MAY CONCERN**

Society for Human and Environmental Development (SHED) has been implementing Education Project entitled "To improve access to quality education to the children of affected population in protected environment and build capacity for social cohesion of IDPs in the return areas of Orakzai Agency" in close coordination with agency education department. Before implementation of the project activities, SHED has established strong coordination with Agency Education Office and briefed/ shared the project proposed activities, detailed implementation plan and deliverables and all necessary information related to the project.

This is to certify that SHED has established 36 TLCs in 18 Govt Primary Schools include (9 each GPS & GGPS) after assessment of schools enlisted by the AEO and imparted five days teachers training to 120 teachers (60 each male & female) from the 60 schools. The teacher training schedule was shared with Agency Education Office and paid PKR.2500 to the teachers who participated in the five days training. The payment acknowledgement receipts have been shared with this office. Similarly, the capacity building training of 60 TIJs (480 members) is in progress and this office is quite satisfied with the ongoing TIJ s training on their roles and responsibilities. SHED team has also shared distribution plan of materials including school in box, recreational kits, stationary kits etc and the distribution is in progress and I hope that SHED will complete the distribution before the winter vacations scheduled from 24 December, 2017.

The Project staff and SHED senior management have been in close coordination with Agency Education Office and the activities are being conducted with mutual consultation in the proposed/selected primary schools and local communities.

I am quite satisfied with the professional work style of the organization in supporting Education department with the provision of capacity building program for teachers and TIJ members, establishment of TLCs in fully damaged schools and provision of schools supplies and stationary kits to schools children through this project and I hope this project will contribute in improving in access to education in a protected environment and suggest to continue this program for a longer period in other schools of the agency left out from this project.
