Dear Muhammad Diyar Khan & SHED colleagues,

indeed we appreciate that SHED has finalized successfully and within the agreed time schedule the '100-housing-project' in Swat, with some houses which I had the opportunity to visit during the phase of construction and some houses maybe I will have the opportunity to visit again even after the closure of the project and when the beneficiaries have already moved in.

I fully agree with you that the cooperation among DKH and SHED field staff as well as with the management was very fruitful and effective - the success speaks for itself - and everybody from the teams who was contributing to this project definitely deserves our respect and appreciation.

Welcoming the New Year I wish you and colleagues and their families all the best and always success for SHED as a social and non-profit organization working for the improvement of the situation of those less advantaged people in Pakistan.

Best regards

Chris H. Fischer
